

# KEY TAKEAWAYS

The following statements represent action-oriented takeaways from community input received to date. **Please let us know if you see it the same way or not.**

I see it the same way Neutral I see it differently

- 1

Wilson County should adopt a land use plan to guide growth and align development regulations, public investments, and decision-making with the community's vision.
- 2

Wilson County should preserve the identity of its rural communities and agricultural heritage by implementing development policies that protect farmland and support related industries.
- 3

Wilson County should preserve sensitive and critical natural resources including land, water, air, and subterranean features.
- 4

Wilson County should invest in transportation infrastructure to enhance quality of life and support economic development.
- 5

Wilson County should identify and prioritize areas for future economic development.
- 6

Wilson County should encourage a range of housing types to ensure diverse choices and price points that meets the community's needs.
- 7

Wilson County should ensure that development is consistent with adopted plans, supported by available infrastructure, and compatible with its surroundings.
- 8

Wilson County should coordinate with municipal partners for development approvals in the Urban Growth Boundary (UGB) areas.
- 9

Wilson County should minimize risks to both people and property through effective land use planning.
